Quick Check After Use

Zeen Inspection

- Please use QR code to access cleaning recommendations and the inspection checklist.
- Exokinetics recommends cleaning the Zeen after every use and completing a full Zeen inspection at least once every 3 months.
- Typically, any issues encountered can be resolved through training or a quick adjustment process. Please contact the Exokinetics Support Team to review the Zeen and determine the best recommendations for next steps before reporting to the Materials Manager for inspection and repair.

See the Zeen in Action – When appropriate, share our social media channels with your patients and their families to see Zeen owners using their Zeens!
